SUMMARY

Results-driven Software Engineer with 3 years of frontend development and 1 year of full-stack experience, building scalable, user-focused applications using React, TypeScript, JavaScript, Node.js, and modern API-driven architectures. Proven ability to deliver production-ready features, enhance performance, and improve user experience through clean, reusable components and optimized UI flows. Experienced in collaborating within Agile teams, integrating complex APIs, and contributing to real-world products ranging from e-commerce platforms to digital learning systems.

WORK EXPERIENCE

Software Engineer Intern

Oct 2025 – Present

BitwareByte Technologies, Ghana
Remote, Nairobi.

- Contributing to the development of OrderKing, a client-based e-commerce platform.
- Implementing frontend features using React, reusable components, routing, and REST API integrations.
- Collaborating with backend engineers to ensure seamless data flow and improve API responsiveness.
- Participating in Agile processes, including sprint planning, stand-ups, and code reviews.
- Assisting with debugging, refactoring code, and optimizing UI performance to improve loading speeds and usability.
- Building and maintaining core features of the OrderKing app using React, Node.js, and TypeScript, increasing user retention by 25%.
- Reducing UI re-render cycles by 20% through optimized state management.

E-Learning Software Developer,

Aug 2024 - Dec 2025

AfroCloud Technologies, Kenya.

- Designed and built interactive, responsive e-learning modules for clients using React, JavaScript, HTML, CSS, and digital e-Learning tools.
- Collaborated with cross-functional teams to deliver high-quality instructional products aligned with client needs.
- Enhanced content experience by optimizing layouts, navigation structures, and user interactions.
- Developed reusable template components that reduced module development time by 25%.
- Developed reusable React-based templates and UI components used across multiple e-learning modules, improving delivery efficiency and consistency.
- Enhanced the scalability and performance of web application by optimizing front-end code, leading to a 30% improvement in load times and user engagement.

Frontend Developer (React.js TypeScript, Node.js) ,

Feb 2022 - Aug 2024

Upwork - Remote, Nairobi, Kenya

- Translated Figma designs into pixel-perfect responsive UIs using React, Tailwind CSS, Node.js, and Firebase.
- Collaborated with cross-functional teams in daily stand-ups and sprint kick-offs to ensure seamless project execution.
- Integrated custom WordPress CMS with React frontend via REST API.
- Developed and maintained key features using React, Node.js, and TypeScript, contributing to a 25% increase in user retention.
- Improved dashboard load performance by 30%.
- Architected and implemented API integrations and Firebase-based backend solutions, improving the overall functionality and reliability of the platform.

CAREER TRANSITION (Nov 2020- Feb 2021)

- During this period, I pivoted my career from Research Analysis to Software Development, driven by my passion for technology and problem-solving.
- Completed a diploma in Software Engineering specializing in frontend development.
- Built multiple projects using HTML, CSS, JavaScript, and React to strengthen practical coding foundations.

OTHER WORK EXPERIENCE

Research Analyst, KALRO, Kenya.

Feb 2018- Oct 2020

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
- Conducted comprehensive project analyses, identifying and rectifying discrepancies in engineering designs.

EDUCATION

Software Engineering (Fullstack Development)

Nov 2024 - Present

Rise in Tech Africa (RITA Africa)

- Hands-on training in fullstack software engineering, focusing on React, JavaScript, TypeScript, API integrations, backend fundamentals, databases, and modern development workflows.

Key Competencies Gained:

- **Full-Stack Development:** React, JavaScript (ES6+), TypeScript, Node.js, Express
- **Backend Engineering Foundations:** API design, server logic, database modeling (MongoDB, SQL)
- **System Design Basics:** Scalability principles, application architecture, microservices fundamentals
- **Algorithms & Data Structures:** arrays, hash maps, recursion, sorting, searching, time complexity
- **Cloud & DevOps Essentials:** AWS basics, CI/CD pipelines, containerization concepts (Docker)
- **Software Engineering Practices:** Git/GitHub workflows, debugging, testing, Agile methodologies
- **Application Deployment:** Vercel, Netlify, Render, and cloud hosting fundamentals
- **Team Collaboration:** pair programming, code reviews, cross-functional communication

Diploma in Frontend Development

Sep 2020 - April 2021

SheCodes Coding BootCamp

- Completed intensive training in frontend development with a strong focus on JavaScript, React, responsive design, and UI/UX best practices through real coding projects.

Diploma in SEO

June 2021- Nov 2022

Digital Marketing Skills Institute

- Learned advanced SEO techniques including keyword research, technical SEO, on-page optimization, analytics, and improving site performance for better search ranking.

Bachelor of Science (Environmental Management with IT),

2014 - 2018

University of Nairobi

- General coursework in Environmental Management, General coursework in Computer Studies,
- Environmental Project Management with IT, Environmental & Social Impact Assessment.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React, TypeScript, Bootstrap
- **Backend:** Node.js, Express.js, Python
- **Frameworks:** Next.js, React.js
- **Testing:** Jest, React Testing Framework
- **Databases:** MongoDB, MySQL
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS), Git, GitHub, Docker
- **Other Skills:** API Integration, REST APIs, Web Performance Optimization, UI/UX, SEO
- **Methodologies:** Agile/Scrum, Version Control (Git, GitHub), CI/CD Basics
- **Certifications:** Meta Frontend Development, AWS Cloud Practitioner

REFEREES

- Darlington Yeboah Faddams, CEO RITA Africa.
- Brian Ochieng, Lead Instructional Designer, AfroCloud Technologies
